City of Springfield, Illinois

Misty Buscher, Mayor
Debbie Thompson, Interim Director

CITY OF SPRINGFIELD
is seeking applicants for

CHEMIST II

The Office of Public Utilities, Electric Generation Division is seeking an individual to plan, organize and supervise non-routine technical activities in the utility laboratory. Assist in non-routine and special analyses involving difficult scientific determinations. Supervise laboratory personnel and participate in analyzing samples of water, sewage and industrial wastes; interpret laboratory data; advise engineers, water and sewage plant chemists and municipal officials on disinfection, operation and service plants; investigate occurrences to determine cause and effects. Perform and interpret boiler water, wastewater, fuel, limestone and waste material sampling and analysis. Evaluate current scientific literature, studies and test new chemicals, methods and procedures and recommends adoption and application. This position requires knowledge, skill and mental development equivalent to completion of four years college, with courses in chemistry or chemical engineering; two years responsible experience in the practice of analytical chemistry, including the operation and calibration of all laboratory and power plant analytical instrumentation and chemical cleaning of boilers. Requires a valid Class D Driver's License and must be available for off-hour assignments. **Current employees (where applicable) and persons hired or rehired after 1-1-17 shall maintain their bona fide residence within the corporate limits of the City of Springfield during all periods of service. Newly hired or rehired employees have 12 months from date of hire to establish city residency.**

This position is covered by I.A.M.A.W. District 9 bargaining unit
