(**Applicant:** Please include this cover page, which IMEA will complete.)

ILLINOIS MUNICIPAL ELECTRIC AGENCY ELECTRIC EFFICIENCY PROGRAM

INCENTIVES FOR IMEA MEMBER MUNICIPALITIES

**Power Factor Correction, Power Quality Improvement, Operational
Efficiency Projects**

May 2026

**NOTE: Only IMEA Member Municipalities can
apply for incentives for these measures.
(Private-sector projects do not qualify.)**

**Program Year FY 2026-27
May 1, 2026 – April 15, 2027**

Program Contact:

Rodd Whelpley
Program & Communications Administrator
Illinois Municipal Electric Agency
3400 Conifer Drive
Springfield, IL 62711
Ph: 217-789-4632 or 800-243-4632
FAX: 217789-4642
Cell: 217-971-8889
rwhelpley@imea.org

A SUMMARY OF HOW THIS PROGRAM WORKS

NOTE: Applicants who want to receive an incentive for an electric efficiency project should not begin the project until they have received a Notice to Proceed (see items 5 and 6 below). **Pre-approval is required for all projects.**

1. The applicant fills out this application (Pre-Application) and gathers the additional required materials that constitute a complete application (see the checklist on page 3). **Before filing an application, IMEA suggests contacting the program administrator, Rodd Whelpley (217-789-4632 or rwhelpley@imea.org), to check on a city's funding availability.** Funds are limited and go fast in several IMEA cities.
2. The applicant sends all materials constituting a pre-application to Rodd Whelpley at the Illinois Municipal Electric Agency (rwhelpley@imea.org), **as a single PDF file. Only one application per e-mail.**
3. Rodd Whelpley will review the pre-application and make any necessary adjustments or corrections. Once it is in order, he will pass the pre-application to the IMEA Board Member or another designated official representing the applicant's municipality.
4. City officials will review the pre-application (and may make any necessary adjustments or corrections). City officials will determine the incentive amount they will offer. **This amount may be between \$0 up to the amount for which the project qualifies.** City officials will communicate their decision to Rodd Whelpley at IMEA. *City officials may set additional caps, limits and rules that are in addition to those listed in this general IMEA application.*
5. Rodd Whelpley will send the applicant a Notice to Proceed. The Notice to Proceed sets aside funding solely for this project. Also, with the Notice to Proceed, Rodd will communicate any instructions from the city concerning pre-inspections. (In most cases, IMEA does not require a pre-inspection, but some member cities require them.)
6. **NOTE:** Applicants who want to receive an incentive for an electric efficiency project **should not begin the project** until they have received a Notice to Proceed and have had a pre-inspection (if required). **Pre-approval is required for all projects.**
7. The applicant does the project (and, if necessary, has a post-inspection).
8. The applicant gathers the necessary materials that constitute a complete final application (see the checklist on page 3) and sends that to Rodd Whelpley (rwhelpley@imea.org) **as a single PDF file.** GENERALLY, for projects that don't change from how they were described in the pre-application, we make a short cut, and the final application is comprised only of sending copies of all final and paid, itemized bills associated with the project preferably as a single PDF file.
9. Rodd Whelpley reviews the final application and makes any necessary adjustments or corrections.
10. IMEA deposits the incentive funds into an account designated on the applicant/payee's Automated Clearing House Payment Authorization form.

ILLINOIS MUNICIPAL ELECTRIC AGENCY ELECTRIC EFFICIENCY PROGRAM APPLICATION CHECKLISTS – MUNICIPAL CAPACITOR/POWER FACTOR/POWER QUALITY IMPROVEMENT/OPERATIONAL EFFICIENCY PROJECTS

Pre-Approval Application Checklist

Pre-Approval Application must include:

- Completed Pre-Approval Application (Cover page and pages 3-8) (found at <https://www.imea.org/EE%20Incentives.asp>).
- A **narrative description of the project**, describing existing Power Factor/Power Quality/Operational Efficiency issues, the correction plan (new equipment, annual run times, etc.) – see page 6.
- A calculation of the estimated energy savings associated with the project (if applicable). **NOTE: for Power Quality Improvement and Operational Efficiency Projects a calculation of energy savings is required** – see page 6
- Manufacturer spec sheets for new equipment – see page 6.
- A project budget – see page 7.

To Submit a Pre-Application

1. Gather materials listed above.
2. E-mail Rodd Whelpley at rwhelpley@imea.org. Please **send as a single PDF** if possible. Only one application per e-mail.

If you have questions, e-mail Rodd Whelpley or call 217-789-4632.

Final Application Checklist

Final Application must include:

- Completed Final Application (Cover page and pages 3-8) (found at <http://www.imea.org/EE%20Incentives.asp>).
- A **narrative description of the project**, describing existing Power Factor/Power Quality/Operational Efficiency issues, the correction plan (new equipment, annual run times, etc.) – see page 6.
- A calculation of the estimated energy savings associated with the project (if applicable). **NOTE: for Power Quality Improvement and Operational Efficiency Projects a calculation of energy savings is required** – see page 6
- Manufacturer spec sheets for new equipment – see page 6.
- A project budget – see page 7.

To Submit a Final Application

1. Gather materials listed above and/or see any special instructions sent to you with your Notice to Proceed.
2. E-mail Rodd Whelpley at rwhelpley@imea.org. Please **send as a single PDF** if possible. Only one application per e-mail.

NOTE: GENERALLY, for projects that don't change from how they were described in the pre-application, we make a short cut, and the final application is comprised only of sending copies of all final and paid, itemized bills associated with the project preferably as a single PDF file. See instructions from the program administrator.

If you have questions, e-mail Rodd Whelpley or call 217-789-4632.

APPLICANT AND PROJECT INFORMATION

Check one: **Pre-approval** **Final Application**

Name of Applicant – IMEA Member Municipality		
Proposed Start Date:	Planned Completion Date:	
Address or City Circuit where measures installed:		
Address:	City:	Zip:
Project Manager:		
Telephone #:	Fax #:	Email Address:
IMEA Electric Efficiency Incentive Requested		Contractor Information (if known)
\$ _____ The eligible incentive is a straight 75% of total project cost (depending, of course, on the amount of funding the city has available).		Contact Name: Company: Phone: Email Address:
Other Public Incentive Funds		
\$ _____ Specify Other Public Funds _____ _____		
Total Project Cost		
\$ _____		

APPLICANT CERTIFICATIONS

NOTE: If this project is approved and completed, then IMEA will send an Automated Clearing House (ACH) Payment Authorization Form to the applicant listed on this page. The incentive will be deposited into the account specified on the ACH form.

IF THE REBATE INCENTIVE SHOULD GO TO ANY ENTITY OTHER THAN THE LOCAL APPLICANT OR ITS NATIONAL HEADQUARTERS, then you must include a signed letter of assignment. In that case, upon completion of the project, the designated payee will file the ACH form and receive the incentive. *If the incentive is assigned, then the final customer billing must provide documentation (usually in the form of a bill credit) showing that the municipality's retail electric customer received the benefit of the incentive.*

Applicant hereby certifies and understands that:

- The project site receives wholesale electric service from IMEA or electric delivery service from an IMEA member municipal electric system.
- All authorizations required to perform the project described in this application have either been obtained or will be obtained no later than 90 days following the project beginning date set forth in the Notice to Proceed Letter issued by the IMEA.
- It has not been barred from contracting with a unit of state or local government as a result of a violation of Section 33E-3 or 33E-4 of the Criminal Code of 1961 (720 ILCS 5/33 E-3 and 5/33 E-4).
- The Illinois Prevailing Wage Act (820 ILCS 130/0.01) may apply and that incentive recipients are responsible for determining if their projects will trigger compliance.
- The applicant, by accepting an offer or receiving an incentive for this electric efficiency project, acknowledges and agrees that IMEA and the IMEA member municipality may publicize the applicant as a participant in this electric efficiency program, including publicizing the applicant's name, the amount of all incentives offered and/or received by the applicant, the general nature of the electric efficiency projects the applicant has undertaken, and the estimated energy savings anticipated or derived from the energy efficiency projects the applicant has completed.
- As of the submittal date, the information provided in its application is accurate, and the individuals signing below are authorized to submit this application.
- Replaced equipment will be disposed of – not placed in storage.
- The applicant, by accepting an incentive for this electric efficiency project, acknowledges and agrees that any rights or abilities arising from kW savings that result from the execution of this project and that may be bid or sold into a Regional Transmission Operator market as energy efficiency or demand response or otherwise shall belong solely to IMEA.

NARRATIVE DESCRIPTION OF THE PROJECT, ANTICIPATED ENERGY SAVINGS, AND SPEC SHEETS

In the space below (or as a separate attachment) please provide a short narrative of your municipal power factor correction or other similar project.

For power factor correction projects, please include your current power factor, your plan to bring power factor up to at least a 95 percent power factor.

If your project involves upgrades to power quality (e.g., reducing flickers on your system) or other operational efficiencies, please describe the issue and the solution in your narrative.

Applications for Power Quality and Operational Efficiency measures must include a calculation of annual kWh reduction and the kW reduction at the time of city peak that are anticipated to result from the project and/or an explanation of why the project will result in demonstrable energy efficiency (for example, if your project is a necessary step toward implementing a voltage optimization program).

This short narrative is probably best provided by your city's engineer or consulting engineer. **NOTE:** Depending on the project, IMEA May request additional information. We will contact you if that is the case.

Attach to this application manufacturers' Spec Sheets for all new equipment.

PROJECT BUDGET

(Total project cost to be reported on page 4)

In the space below **(or as a separate attachment)** please provide a project budget for your proposed project. Budgets should include the cost of materials and labor (even if that is city labor).

The budget may be written below, submitted as a separate spread sheet or may be in the form of a bid from an outside vendor.

For a FINAL APPLICATION, the project budget consists of copies of all itemized, paid bills associated with the project.

CALCULATION OF ELIGIBLE INCENTIVE

(To be reported on page 4)

The eligible incentive is a straight 75% of total project cost (depending, of course, on the amount of funding the city has available).

NOTE: Only IMEA member municipalities are eligible for this measure.

ELIGIBILITY

This Electric Efficiency program is available to the membership (and members' retail customers) of the Illinois Municipal Electric Agency (IMEA). It is administered and funded through IMEA. FY2026-27 of the program runs from May 1, 2026, through April 30, 2027. Funds are allocated to IMEA members based on a prorated share of their electric purchases from the IMEA. Commercial/ industrial and public-sector facilities served by members can apply for funds using this form from May 1, 2026, until this form is superseded by a subsequent revision or until the program ceases accepting pre-applications on April 15, 2027.

Eligible projects must be located in Illinois and receive electric service from the IMEA or an IMEA member. Projects must produce electricity savings through efficiency improvements in commercial, industrial or public-sector buildings, equipment, or processes. Ineligible projects include repairs of existing equipment, fuel switching, new electric generation or those projects solely related to demand response or demand control. Project paybacks must occur before the projected end of the equipment life.

Incentive Awards. The total incentive cannot exceed 75 percent of the total project cost. IMEA reserves the right to review applications, withhold funding, cancel funding or negotiate incentive levels. Bid prices must be in line with current market conditions for similar projects/conditions.

Payment Schedule/Reporting and Project Monitoring. The Notice to Proceed (sent upon approval of the pre-application) will specify the conditions of payment and the payment schedule. Incentive recipients will allow officials from the IMEA member municipality and IMEA officials access to their site to verify project issues. Energy savings numbers will be shared with IMEA (for public release unless specifically noted as confidential or proprietary).

Ownership/Use of Equipment. Equipment must remain in place for at least the lesser of five years or "useful life."

IMEA Not Liable. Incentive recipients shall hold the IMEA member and the IMEA harmless from any and all claims, demands, and actions based upon or arising out of any services performed by the incentive recipients or by their agents or employees.

Indemnity. The incentive recipient agrees to assume all risks of loss and to indemnify and hold the IMEA member and the IMEA, their officers, agents and employees, harmless from and against any and all liabilities, demands, claims, damages, suits, costs, fees, and expenses, incidents thereto, for injuries or death to persons and for loss of, damage to, or destruction of property because of the incentive recipient's negligence, intentional acts or omissions. In the event of any demand or claim, the IMEA may elect to defend any such demand or claim against the IMEA and will be entitled to be paid by the incentive recipient for all costs and damages.

Term and Application. Applications under this program will be accepted on an ongoing basis, subject to funding availability. Applications shall be printed or typed on the current approved forms and/or worksheets. Applications must be complete and submitted in the correct fashion (see the Pre-Application and Final Application checklists) to receive consideration.

Subject to a programmatic change enacted by the IMEA Board of Directors, approved projects will have reserved funds until April 30, 2027, or until a project expiration date as noted on a project's Notice to Proceed document. A final application, reflecting the measures and equipment actually installed, must be submitted within 45 days of project completion. Project documentation, such as copies of dated and itemized invoices for the purchase and installation of the measures and/or product specification sheets, is required.

Applications will be screened by IMEA and the member community. The IMEA member will have final say as to the priority of project funding in its community. Decisions on project priority and funding awarded to any project will be communicated to the IMEA through the IMEA Board Member representing the member community.

Incentive Payments. A final application, reflecting the measures and equipment actually installed, must be submitted within 45 days of project completion. Project documentation, such as copies of dated, itemized invoices for the purchase and installation of the measures and/or product specification sheets, is required. The IMEA will review the final application. Applications that satisfy the review will be processed upon IMEA approval. The incentive will be the amount for which the project qualifies up to the amount that was obligated for the project in the project's Notice to Proceed, subject to funding availability.

MEASURE SPECIFIC REQUIREMENTS – POWER FACTOR CORRECTION / POWER QUALITY/OPERATIONAL EFFICINECY PROJECTS

1. ONLY IMEA member municipalities are eligible for incentives for these measures.
2. Projects that involve repairs to existing equipment are not eligible.
3. The measure is intended to help the cities make necessary power factor corrections or improvements for already existing loads. Equipment installed as part of new construction or as part of a renovation or a facility change-of-use project *may* be eligible at the discretion of the IMEA and the IMEA member municipality.
4. Only proven equipment will be eligible for an incentive. Evidence of “proven” equipment may be (but is not limited to) the equipment’s inclusion in other Illinois electric efficiency programs or the equipment’s accreditation or seal of approval by a recognized entity that sets industry standards. In all cases, IMEA and IMEA member municipalities reserve the right to determine whether the proposed equipment is acceptably “proven.”
